

## PASS COA 300 Rules Memo

### **Super Late Models**

Due to the high temperatures forecast at the Celebration of America 300, for this event ONLY, Super Late Models may use one extra fan or hose to the driver. The hose must be hooked to a duct in the rear quarter windows or the left A-post window. Nothing can hook to the right A-post or B-post, and the fan or hose can NOT be run near or around the ignition box.
